PROJECTS

Capstone: Seat Scoop

- A resource for fans of theater to view and share seating information for venues in their area.
- Users can search for events/venues near a specified location and view seating charts for theaters, including photos of the view from each individual seat.
- Technologies used: Ruby on Rails, HTML, CSS, JavaScript, AngularJS, SQL, Bootstrap, Google Places API, SeatGeek API.
- **GitHub:** <https://github.com/dianacamacho/theater-app>
- **Video:** <https://www.youtube.com/watch?v=gJRllpB5N10>

WORK EXPERIENCE

Developer Apprentice

The Difference Engine | Chicago, IL | April 2016 – Present

- I am currently on a team developing a volunteer management system for the non-profit JUST-a-BREAK.
- I am responsible for testing feature code and managing deployment to our QA, Demo, and Production servers on heroku.
- It is a Ruby on Rails app

Customer Service Associate

Novitex | Chicago, IL | Jan 2016 – Present

- I am currently working as a CSA in the Mail Services/Imaging department where I prep, scan, and index claim correspondence.

Chemistry Tutor

George Washington University | Washington, DC | Aug 2014 – May 2015

- I led daily tutoring sessions with undergraduate student athletes enrolled in general and organic chemistry courses.
- I planned material for group review sessions prior to midterm and final exams.
